Green DDR Package

Calculate your event's environmental impact using our LightStay Reporting Tool

By partnering together, we can help you achieve your sustainability and social impact goals, to help preserve our global community for generations to come.

Our advanced LightStay Tool generates a detailed report customised for your event, analysing energy and water usage, as well as waste management. By utilising this report in conjunction with our Green DDR package options, you can effectively manage and decrease your event's environmental footprint while achieving your ESG objectives.

Our
Green DDR Package
includes

- *Environmental Impact Report*
- *Carbon offsetting*
- *Mindful menus*
- *Eco friendly amenities*
- *Plant It pencils*
- *Mindful travel*
